

DWELLERS ENGINEERING

Building with Integrity, Engineering with Excellence.

ABOUT US

Dwellers Engineering (Pvt) Ltd is a professionally managed engineering and construction company established with a clear vision of delivering reliable, cost-effective, and high-quality solutions to the built environment. Guided by sound engineering principles and industry best practices, we provide comprehensive end-to-end services—from concept development and design through construction and final project delivery.

Our approach is founded on a thorough understanding of client requirements, technical excellence, and a strong commitment to quality, safety, and sustainability. By integrating modern technologies, skilled professionals, and efficient management systems, we consistently create long-term value for our clients and stakeholders while contributing positively to the advancement of the construction industry.

DWELLERS ENGINEERING

VISION & MISSION

Vision

To be a trusted and respected engineering and construction partner, recognized for technical excellence, reliability, and sustainable development solutions.

Mission

Our mission is to deliver high quality engineering and construction services by building lasting client relationships, adhering strictly to industry standards, ensuring safety and sustainability in every operation, and completing projects on time and within budget.

EXECUTIVE DIRECTORS

**Mr. Chamara
Mallawaarachchi**

Mr. Mallawaarachchi brings extensive experience in engineering operations, project execution, and organizational leadership. His expertise includes planning, coordination, and delivery of complex construction projects, with a strong focus on quality, efficiency, and client satisfaction. His strategic oversight and hands-on management approach play a pivotal role in driving operational excellence and sustainable growth.

EXECUTIVE DIRECTORS

Sembakutti**

Mr. Sembakutti is a highly experienced professional specializing in project management, engineering operations, structural coordination, stakeholder engagement, . His expertise includes planning, execution, execution of complex construction projects and supervision of projects ranging from residential developments to high-rise buildings. His commitment to precision, quality assurance, and technical excellence strengthens the company's ability to deliver reliable and efficient construction solutions.

DWELLERS ENGINEERING

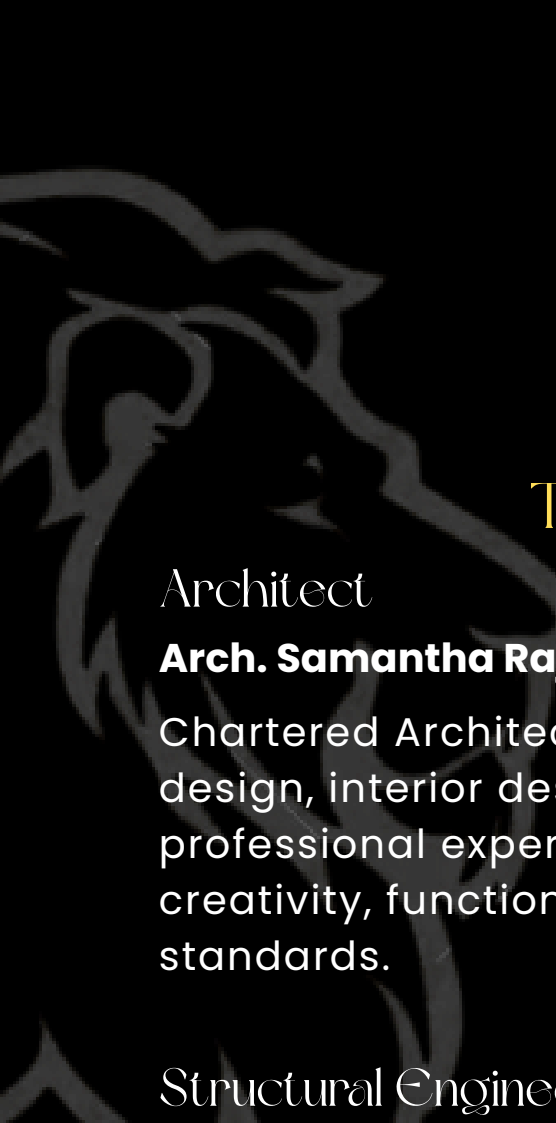

Directors' Message

At Dwellers Engineering, we believe that true success is founded on trust, integrity, and a legacy of consistent excellence. Our commitment extends far beyond project delivery. It is rooted in cultivating enduring partnerships and creating meaningful, lasting impact through every engagement.

We approach each collaboration with a deep sense of responsibility and purpose, aligning our success with that of our clients. By delivering exceptional value and contributing positively to the communities we serve, we strive to set new benchmarks in performance, reliability, and long-term sustainability.

DWELLERS ENGINEERING

Technical Expertise

Architect

Arch. Samantha Rajaranthne

Chartered Architect with extensive experience in building design, interior design, and landscape architecture. His professional expertise ensures that all projects reflect creativity, functionality, and compliance with industry standards.

Structural Engineer

Eng. Chaminda Sembakutti

A highly experienced Structural Engineer holding a Master's degree in Foundation Engineering. His expertise covers residential, low-rise, medium-rise, and high-rise buildings. He possesses extensive experience in structural design, piling works, MEP coordination, and infrastructure development through his involvement with leading organizations in the country.

MEET THE TEAM

At Dwellers Engineering, our greatest asset is our people. Our team of expert engineers, technical specialists, and seasoned professionals brings a powerful blend of hands-on experience and forward-thinking innovation to every project we undertake.

Driven by excellence, we continuously invest in cutting-edge technologies, industry-leading training, and professional development to stay ahead in a rapidly evolving market. This commitment enables us to deliver smart, efficient, and future-ready engineering solutions that exceed client expectations.

With a strong culture of expertise, innovation, and reliability, Dwellers Engineering stands as a trusted partner in delivering high-performance results across every project.

OUR SERVICES

- Civil and Structural Engineering Works
- Building Construction and Renovation
- Architectural and Structural Design Coordination
- Project Management and Contract Administration
- Interior Fit-Out and Finishing Works
- Infrastructure Development
- Engineering Consultancy Services

DWELLERS ENGINEERING

THE PROCESS

- Client Requirement Analysis
- Concept Development and Planning
- Design Coordination and Cost Optimization
- Construction and Implementation
- Quality Control and Safety Management
- Project Handover and Post Completion Support

Core Engineering Division

Dwellers Engineering (Pvt) Ltd undertakes a broad range of civil, structural, and building engineering projects. We manage assignments from initial planning and design through construction and commissioning.

Our operational philosophy emphasizes reliability, transparency, efficiency, and client satisfaction—ensuring smooth project execution with minimal risk and maximum value.

Operational Strategy

Our operations are structured to maintain effective control over quality, cost, and time. Where appropriate, we adopt integrated in-house execution strategies to enhance coordination and reduce reliance on external parties.

Strategic collaborations and joint ventures are pursued to expand capacity and deliver specialized technical solutions when required.
